

Please leave Wisconsin's "No Call" law alone. Do not make us follow federal law which is less strict than Wisconsin law. Our law protects elders too. (Remember, you are getting older every day and will be in the same boat some day.) When I put my telephone number on the Federal and the State of Wisconsin No Call lists, it said is there another number you want to put on? I thought of my dad, 88 years old, who does not like to bother with all this new fangled stuff. So I put his number on both lists too. I mentioned it to my younger sister and she said good! My dad has trouble hearing people who call who don't speak up and clearly because they don't know he is hard of hearing. This can get messy for him, so that is why I put his number on the lists too. We like the strictness of Wisconsin law and do not want any changes made.

Sincerely,  
Barbara Jean
